## PRINCIPLES OF VISUAL DESIGN

### Contrast

- Dark text, light background.

### Alignment

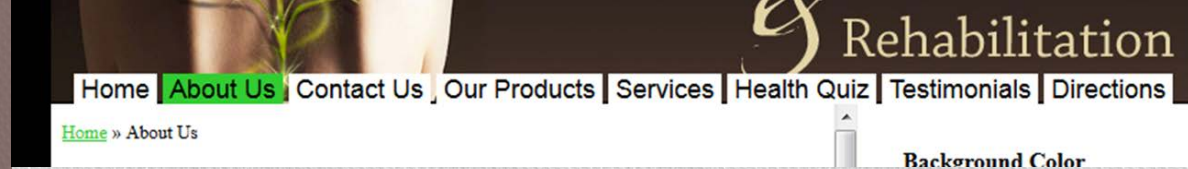

- Text is aligned to make reading content easier.

### Repetition

- All pages have repetition of many elements (i.e. color, shape, font) throughout the site to make site more professional.

### Proximity

- Text is aligned to make reading content easier.
- Related items placed physically close together.

## About Us

Have you been looking for a chiropractor in Las Vegas? Unlike conventional medicine, which focuses on attempting to treat disease once it occurs, the chiropractic care offered at Apex Health Centers in Las Vegas emphasizes the importance of improving your health in an effort to reduce the risk of pain and illness in the first place. Given the option, most people would prefer to be healthy and avoid illness if possible, and chiropractic care can help those people achieve their health and wellness goals. For those patients who may already be in pain, chiropractic care offers a unique way to provide pain relief for many types of pain and conditions, including back pain, neck pain and more! Pain relief and pain prevention are two of the reasons that chiropractic services have become so popular, both here in Las Vegas and around the world.

If you have been suffering from back pain in Las Vegas, don't wait another second to begin your road to recovery! At Apex Health Centers our chiropractic techniques can assist patients with the rediscovery of health and wellness that had been lost.
